Bibliography (May Subd Geog)

[Z1001-Z9000]

Under this heading, when subdivided by place and
 appropriate topical subdivision, are entered works
 which discuss the theories, methods, history, etc. of
 the discipline of bibliography practiced within a par-
 ticular region or country, e.g. Bibliography—United
 States—History; Bibliography—United States—
 Methodology.

Works on the technique of compiling national bib-
 liographies, i.e. lists of titles produced in one country,
 lists of titles produced in the language of one country
 without regard to place of publication, lists of titles
 produced by citizens of one country whether residing
 in that country or elsewhere, or lists of titles about
 one country, are entered under Bibliography, Nation-
 al with country subdivision, e.g. Bibliography, Na-
 tional—United States.

Actual lists of titles published in a particular coun-
 try are entered under the name of the country with
